CATHERINE C. NAPSEY, R. N.

The School Board of Swanzey records with profound regret the resignation of Dr. Arthur W. Hopkins. For thirty-eight years Dr. Hopkins has been a school board member in Swanzey and has devoted time and energy unstintedly and unreservedly in the interest of the youth of the town. For the major portion of this period he has served as chairman of the Board. That the townspeople have high regard for him as a public spirited citizen is attested by the fact that the school in North Swanzey bears his name. Over the years, Swanzey education and Dr. Hopkins have come to be regarded as synonymous.

His fame as a champion of education has not been restricted to the confines of this town. At graduation exercises held in June, 1948, at Keene Teachers College, the Commissioner of Education of the State of New Hampshire publicly honored Dr. Hopkins by presenting him with a citation for exceptional service to public education.

Although the school authorities keenly realize the great loss they will sustain in no longer having Dr. Hopkins as a member of the School Board, they are confident that he will still maintain an ardent interest in school affairs and be ready to offer wise counsel as in years past.

CATHERINE C. NAPSEY, R. N.

REPORT OF SUPERINTENDENT OF SCHOOLS

To the School Board and Citizens of Swanzev :

I have the honor to submit my second annual report.

Teachers: Two new teachers were added to our staff as schools opened in September. Mrs. J. Irene Reynolds was elected to the second grade position at Cutler School and Mrs. Dorothy Story was engaged to teach grades three, four, and five in the East Swanzev School.

Buildings and Grounds: Since the enrollment of pupils in East Swanzev had reached the point where a third teacher was necessary for efficient instruction, the School Board began to look for a place to house the third group. A meeting was arranged with the Trustees of the Community building and an agreement was reached whereby the library room could be used for school purposes.

The room in the Community building is functioning very well. It is being used for the first and second grades with Mrs. Osborn as teacher. Fibre rugs were purchased so that the floor would not be so cold. The room is equipped with furniture suitable for small children. A new storage cabinet has been added recently which Mrs. Osborn uses for school supplies.

At the Cutler School in West Swanzev, it was decided to divide the first and second grade group into separate grades. This was due to the fact that the enrollment in grades one and two had become so large that one teacher for the combined grades was no longer sufficient. This again presented a housing problem. After due deliberation, the School Board voted to have a partition built at one end of the basement room thus providing a classroom and leaving the larger section as a lunchroom.

New fluorescent lights were installed to insure adequate lighting for the pupils. Mrs. Reynolds teaches the second

grade in the improvised room. Safeguards have been taken to allow rapid egress in case of fire. The new arrangement now allows Miss Rand to give her full attention to the first grade.

The usual summer repairs were made and painting done by the school janitors during the summer months. In addition, the exterior of the Westport School was completely painted.

Instructional Activities: The teachers of Swanzey attended a Workshop in Education held in Keene during the week of January 3-7. The Workshop was conducted at Keene Teachers College in the Social Studies field under the guidance of Dr. Gertrude M. Lewis of the State Department of Education. A great deal of value was derived by the teachers which should make itself apparent in the months ahead.

The fundamentals are being stressed again this year as they were last year. Standard tests in Arithmetic Reasoning, Arithmetic Computation and in Spelling have been given to all elementary school pupils in Union No. 25 comprising the towns of Swanzey, Hinsdale, Winchester and Richmond. It is our humble opinion that reading, writing and arithmetic are still important tools of learning and should be treated accordingly.

Hot Lunch Program: The hot lunch program at the Cutler School continues to function most efficiently under the capable direction of Mrs. Marie Capron, principal of the school. The boys and girls are assured of a good hot lunch. Not less important, also, is the fact that the pupils learn the niceties of etiquette and table manners.

Another hot lunch program has started in our Swanzey schools, this one at the Wilcox School in Swanzey Center. The sponsor of this activity is the Wilcox PTA. This active and energetic organization is doing a splendid job of providing hot lunches for the Wilcox School pupils. Volunteers among the mothers are doing the work. That the children like it is attested by the fact that Miss Sargent reports 42 pupils having hot lunches out of an enrollment of 46. This is a remarkable percentage.

Miscellaneous: At the present writing, a federal bill is being proposed which would provide federal funds for school

construction. The plan is for the federal government to furnish 50 percent of the cost. The citizens of Swanzey should remain aware of such legislation and be ready to take advantage of federal funds when and if available.

The local School Building Committee is cognizant of the needs of Swanzey. The members are taking a realistic and long range view of the problem. With federal and possibly state aid made available for building purposes, Swanzey should be in a position to greatly improve its school plant.

As recommended in last year's report, the combined school boards of Union No. 25 voted to purchase an audiometer for the four towns. A pure-tone Maico audiometer was bought and has been used to great advantage. With this machine, our pupils can now be tested scientifically for hearing deficiencies. The slow learning rate of some pupils have been traced to hearing losses. When the defects are corrected and seating adjustments for such pupils are made in the classroom, an improvement in the rate of learning is usually the result.

In conclusion, I wish to express my appreciation to the teachers, pupils and parents, to the School Board and to the patrons of our schools for their cooperation.

Respectfully submitted,

CHESTER C. LEES,

Superintendent of Schools.

REPORT OF CUTLER SCHOOL LUNCH PROGRAM

In January, 1946, the lunch program was begun at Cutler School. This activity is a part of the Federal Lunch Program which urges a balanced Type A meal for school children. This is now available to our pupils for twenty cents a meal. We are able to give several free lunches each day to those who need a lunch, yet through no fault of theirs, are not able to pay. None of the children know which these are. It is the feeling of the teachers that hot lunches have improved health and scholastic standards of the children.

This lunch program has been made possible by the splendid cooperation and interest of many faithful parents, friends, pupils, teachers, our cook and janitor. All have donated generously of their time, money, food and numerous other items.

The first year, all labor was donated. The second year we were able to pay for a part-time cook to assist the donated labor. As present, we are able to have a full time cook. Another addition this year is a large gas range given to us by interested workers. Cooperation of all concerned has made this program possible with no additional cost to tax payers, even though we have been confronted with increased cost of food and labor.

The State Lunch Supervisor on her various inspection visits to our lunchroom has commended the Cutler School program. She has been especially interested to find that this has been a real "school and community" program.

We wish to thank the people of our community for their help and continued support. You are invited to visit our school at any time and see our lunch program in operation.

REPORT OF THE FOREST FIRE WARDEN

Your local organization to prevent and extinguish brush and woods fires is glad to report a good year of forest protection in 1948. In spite of danger conditions nearly equalling at times those of 1947 when great losses were suffered in New Hampshire and New England, fire damage and loss this year have been gratifyingly low.

With the continuing cooperation of all the people, we can hope to have another successful year in 1949. Let us remember that in any year, over 90% of all fires are caused by carelessness and that all of these man-caused fires are preventable.

Today, we have more slash and uncut grassland than for many years in the past. Smokers, campers and tourists who use our outdoors are also more numerous than ever before. We must therefore be ready for fires which might occur but, above all, prevention by everyone is the greatest need.

A few simple precautions taken by every citizen will help, as follows:

- (1) Always get a written permit from the warden before kindling a fire outdoors when the ground is not covered with snow.
- (2) If you smoke, always extinguish matches and tobacco before dropping or throwing them down. In automobiles, always use the ash trays.
- (3) Report fires and smokes to the warden without delay.

The observance of these and other simple rules will go far to insure safety from fire damage and your cooperation in this way is earnestly solicited.

F. J. BAKER,
District Fire Chief.
